License Restoration

An individual should apply for a restoration application if their license has been inactive for two years or more. A license may be restored upon an applicant's submission of a restoration application, the restoration fee, and submission of criminal background checks. Please note: the board may require additional training or examination, or both, of any applicant who, for the two years or more immediately preceding the date of application, has not been engaged in clinical practice. To restore a license, log into the eLicense portal at https://elicense.ohio.gov/OH_HomePage
